Why PODGORICA

Centrally located

It is the **administrative, university, cultural and economic centre** of the country.

Easily accessible

2 international airports in Montenegro, flight connections to over 50 destinations

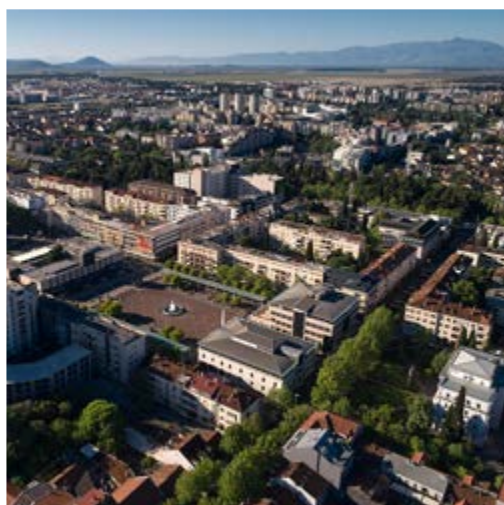

Safe

Podgorica is known as a **safe city for visitors both during the day and night**, offering a sense of security and peace throughout their stay.

Hidden gem

Podgorica serves as the capital of **Montenegro, the world's first declared ecological state**, with 14% of its territory preserved as national or nature parks.

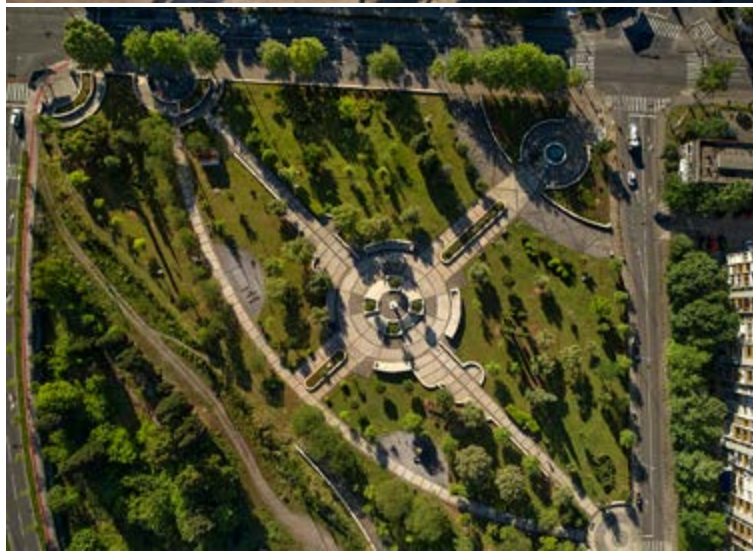

Podgorica

one of the **greenest**
European cities

Green spaces are a great way to have cleaner, healthier cities and to encourage people to spend time out. That's why Podgorica has been renovating old parks, building new ones and creating children's playgrounds.

The city is proud that in February 2022, the European Environment Agency ranked Podgorica among the five greenest cities in Europe in the category of "urban green areas."

Numerous parks in the very center of the city makes Podgorica unique. Children's Park, King's Park, Đorđe Balašević Park, Njegošev Park, Karađorđev Park, Podgorica Park and many others represent the green oasis of Podgorica with clean air and a pleasant climate.

CULTURAL HERITAGE

OLD TOWN

The Old Town, with its urban and architectural forms, customs, lifestyle and oriental characteristics, was a core of the old Podgorica in the period of Ottoman Empire (1474 – 1879). The symbol of the Old Town is a Clock Tower, the building located in the Square of Bećir Beg Osmanagić. It was built by Mehmed-Pasha Osmanagić. An interesting fact is that at that time he ordered a watch from Italy.

DOCLEA

Just four kilometres from the city centre, on a wide plateau, surrounded by rivers Morača, Zeta and Širaliđa, travellers can visit the remains of the ancient town of Doclea, dating back from the I century AD. Already at IV century AD, the area in the eastern part of the town is being settled by Christians who are building churches and a large Episcopal Basilica. The ancient Doclea became known in the archaeological world when the famous Podgorica Cup was discovered, and which is today kept in the Russian Museum of Hermitage.

MEDUN

The Old town Medun is located about 12 kilometres north-east from Podgorica, in the Kuči area. It is known for its monumental complex that consists of the remains of the Illyrian town Meteon, St. Nikolas' Church and the birthplace of Marko Miljanov, a Montenegrin national hero and writer, whose house today is a City's Memorial Museum.
